

- ◇ Sangihe: twenty seven weight of children increased in three villages.
- ◇ Pangandaran: vocational training program, promotion and trainer of training networking.
- ◇ Teunom: the story of Mrs Lailawati.
- ◇ Teminabuan: the distribution of ARV drugs.
- ◇ Lampung: organic paddy plantation with SRI.

*Health And Nutrition Education Program – Sangihe (Donor: ADRA Australia)*

*In* this month, a trained Kader from three villages to visit the houses of underweight children who have attended post nutrient training last month. The result is:

◇ **Lesu Village:** Nine children attended post nutrient activity for twelve days, *seven children gained weight 100-800 grams*, one child lost weight 100 gram and one child weight remains. Four of the seven children who gained weight had passed from monitoring of post nutrient Kader because their weight was normal for children as their age or are in the green level of Child Growth Monitoring Chart. Comment from the mother of Yeselin Tuangga - after attended post nutrient training, she gave her daughter a complete meal with a good combination of rice, vegetables and fish. *Yeselin's weight has increased up to 1.300 grams in two months* and has been in the green level of Child Growth Monitoring Chart. Now Yeselin also always wash hands before eating and brushing teeth after eating.

Children practice self hygiene.

◇ **Beha Lama Village:** Twelve children attended post nutrient activity for twelve days, *ten children gained weight 200-700 grams* and two children weight remains. Three of ten children who gained weight had passed from monitoring of post nutrient Kader because their weight was normal for children as their age or are in the green level of Child Growth Monitoring Chart, while others children were still continue to be monitored. Comments from the mother of Justin Manoi - after attended post nutrient training, she tried to apply all

the information about personal hygiene and preparing food with a good combination to her son. *Justin's weight has increased up to 200 grams*. In addition, She was also pleased with ADRA's training program to make soy milk.

◇ **Beha Baru Village:** Twelve children attended post nutrient activity for twelve days, *ten children gained weight 100-600 grams*, two children lost weight. All children who gained weight still continue to be monitored.

*Tsunami Rehabilitation Through Small Enterprise - Pangandaran  
(Donor: ADRA Czech)*

Brochure distribution to promote Pangandaran products.

**Vocational Training.**

Training has been conducted six times with a duration of ninety hours and followed by twenty four participants. Training is conducted such as:

- ◇ **Fish Products (Nugget).** After receiving training from ADRA, participants create and sell these products on the market. Mrs Desri sold it for Rp 500/pcs and average income per day is Rp 15,000. The quality of these products will be enhanced so that could be sold outside of Pangandaran.
- ◇ **Tempeh.** Tempeh is not only as an everyday food but also as a snack foods such as crunchy tempeh, which has many customers but so far not produced in Pangandaran.
- ◇ **Shredded Fish.** Shredded fish that had been sold in Pangandaran imported from other

regions. Many visitors coming to Pangandaran always looking for Shredded Fish. This is a good business opportunity for residents in Pangandaran.

- ◇ **Fish Crackers.**
- ◇ **Spa and Salon Training.** ADRA invites a teacher for this training on August 18 to 23, and support by providing the necessary equipment. Now Mrs Epong, one of the participants could get Rp 50.000/day from the spa business. This training includes basic training and planned at a higher level will be invited trainers from outside Pangandaran.

**Marketing Management and Sales Promotion.**

- ◇ ADRA has worked closely with cooperatives officers had made Blog and Facebook account that have been activated since July 2010.
- ◇ ADRA has worked closely with beneficiaries to print brochures and distribute it in Bandung and get a good response from readers. Mrs Lilis, one of the participants admitted very pleased to attend the activities held outside of Pangandaran. ADRA supports these activities by providing guidance and evaluation. Every morning before brochures distribution, all participants were given guidance and motivation.

**Trainer of Training Network**

- ◇ ADRA held a meeting with Indonesian Education University (UPI) and Tourism College (STP) Bandung on training in Pangandaran and calculate the budget and timetable. UPI responds well to conduct training in Pangandaran as soon as possible.
- ◇ **Specialized crafts company.** ADRA seek training for handicrafts in Yogyakarta because Yogyakarta is the most complete city in craft training. There are 2 (two) alternatives, invite them to come to Pangandaran or send beneficiaries to Yogyakarta.
- ◇ **Packaging and product registration.** ADRA with cooperative officers visiting a company that agreed to provide training in Pangandaran and trade contracts with the packaging.

ADRA has given Spa and Salon training.

*Restoring Livelihood For Tsunami Affected - Teunom (Donor: ADRA Canada)*

**The Story of Mrs Lailawati.**

**M**rs Lailawati (32), a housewife who has not received aid of tsunami victims and her husband, Mr. Ade Acay (48), a mechanic. They have 2 children, Indawati Lestari (12), who is safe from tsunami, and Dinda Monica who was only 4,5 years. Although this family was not receive tsunami aid yet but this family keep positive thinking. Before ADRA came with cow bank program, Mrs Lailawati and her husband have planted paddy for family rice to meet their daily basic food needs. She happily said that, *"This is the first time I get aid."* After ADRA came, she experienced some changes: the increasing experience through training, also will have a profit because of the capital. Through ADRA with cattle aid, "Thank God," there is capital for the family. When asked about future plans, she wanted to open a shop of small business or start an agricultural job. With the additional working capital loan assistance, there is a hope for this family to reach his goal. Now it is time look ahead for the future of the children to be successful. The secret of life, "If we are diligent, surely we will succeed." This family come up from adversity with a great spirit in this life.

Mrs Lailawati with Indawati, her eldest daughter.

Hector Carpintero, ADRA Indonesia Country Director met Mrs Lailawati.

*More pictures from the story of Mrs Lailawati.*

Beneficiaries participated in the formation of management temporary group.

Beneficiaries seriously listen to explanations of socialization program from Jelome Selda, Program Director.

ADRA provides cattle aid to beneficiaries.

*Sorong Selatan HIV And AIDS Prevention Program (SHIVAP)  
(Donor: ADRA Australia, ICCO & Kirk en Actie)*

**The Distribution of ARV drugs.**

Antiretroviral (ARV) is medicine used to suppress the growth of HIV in the blood. ARV drugs can change HIV from a fatal disease into a chronic disease. ARV can reduce the ability of HIV replication. By taking ARV, People living with HIV & AIDS (ODHA) can survive longer, so improving the quality of life and decreasing death due to HIV. ADRA has conducted training counselor and case manager with national standard in April 2010, one result of this training is the availability of counselors and case managers who will perform Voluntary Counseling Testing (VCT) and Care Support Treatment (CST) services to communities in South Sorong regency. Up to September 2010 has been found 3 cases of HIV through VCT clinic assisted by ADRA, with

the invention of this case, the VCT clinics need antiretroviral drugs for treatment to the patient. In September, ADRA has distributed antiretroviral drugs to the VCT clinic, which is obtained from Sele Be Solu Hospital in Sorong. The number of ARVs that have been distributed: a) Zidovudine + Lamivudine (Duviral) : 360 tablet. b) Stavudine (Staviral) : 360 tablet. c) Lamivudine (Hiviral) : 360 tablet. d) Nevirapine (Neviral) : 360 tablet. e) Efavirenz (Efavir) : 180 tablet. These medicines will be provided free of charge to patients with HIV so as to provide convenience to the patients to seek treatment. With the availability of ARV drugs in South Sorong so ODHA in South Sorong no longer need to spend much money to antiretroviral drugs.

*By Prayudhi Fadhillah - Project Coordinator*

ARV drugs are ready to distribute to VCT clinic.

*Micro Credit For Farmers - North Lampung (Donor: ADRA International)*

**SED Lampung Demo site - SRI (System of Rice Intensification) & Organic Paddy Plantation.**

ADRA paid for a rental field area of 3.25 hectare (in two villages) to make vocational training relevant and easily understood by farmers. ADRA worked together with for about 50 cooperative members and non members of Sumber Makmur from Sumber Baru village and Neki, and all seeding process is finished in 17 September 2010. To reduce operational cost, ADRA decided to apply 50% Organic Planting method. ADRA always encourage all cooperative members to be actively involved in all planting process such as

providing organic fertilizers, preparing the land area, seeding and weeding, etc. It is our hopes that farmers could learn many things about SRI and Organic Paddy Plantation through this demo site program, and also could learn how to increase yields.

Last seedling at Sumber Baru village.

### Meet Our Staff

Ellen Satigi

Administrative Assistant In Sangihe  
Birthday: 22 December  
Email: ellen\_satigi@adraindonesia.org

What is of your favorite moments while working with ADRA? My favorite moments while working with ADRA is I could be in Sangihe Islands. And with HANEP project I actually met a friendly Sangihe people. As Administrative Assistant/Cashier, I get additional knowledge in finance field. Hopefully this project succeed with staff who like working hard and working together. Thank you ADRA Australia...

Herman Dalope

Health Officer In Sangihe  
Birthday: 19 September  
Email: herman@adraindonesia.org

What's make you interested working in the field? Experience working in ADRA is very exciting for me, especially HANEP project in Sangihe. I get new experience and learn about the implementation of Positive Deviance Inquiry and apply directly with Sangihe community. From some of my experiences working and living in an area before that also had relation with Mother and Child Health program, I noticed that Sangihe community more open with new things especially for their progress, so we are quite easy to work with them to implement Hanep project.

### Birthday In This Month

Reyki Gantare  
Project Coordinator In Teminabuan  
Birthday: 13 September

Happy birthday to you...

Herman  
Health Officer In Sangihe  
Birthday: 19 September  
Email: herman@adraindonesia.org

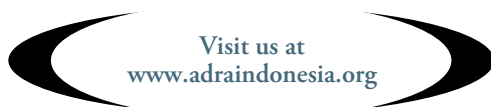

Many happy returns and wish you all the best...

**ADRA**  
ADVENTIST DEVELOPMENT  
AND RELIEF AGENCY  
INDONESIA

*Changing Indonesia  
One Life At A Time*

The Adventist Development and Relief Agency (ADRA) is an independent humanitarian agency established by the Seventh-day Adventist Church for the specific purpose of providing individual and community development and disaster relief. Locally registered, ADRA serves people without regard to their religious association. It simply helps people in need, especially those most vulnerable such as women, children and the elderly.
