

## Call for Proposal Project Evaluation Consultant

### General Information

ADRA Indonesia is seeking services of an experienced consultant to carry out the final project evaluation as summarized below.

<b>Title:</b>	Final Evaluation Consultant for REEF Project (Recovery of Economy for Earthquake Affected Families).
<b>Duty Station:</b>	Sigi Regency, Central Sulawesi – Indonesia
<b>Responsible to:</b>	Program Director
<b>Coordinates with:</b>	Project Manager and HR Manager
<b>Duration:</b>	24 July – 30 August 2020
<b>Closing date:</b>	22 July 2020

### BACKGROUND

Yayasan ADRA Indonesia is an Agency of the Seventh-day Adventist Church. The mission of the agency is to serve humanity so all may live as God intended. ADRA Indonesia has operated in Central Sulawesi since the second day after the disaster hit and established the Emergency Response Team. In rehabilitation and reconstruction phase, ADRA Indonesia implementing a 12-months REEF project that will be completed in June 2020.

The REEF Project aims to recover the income generating activities of 1,103 households four villages of Sigi regency, by normalization or restoration of tertiary canals of the existing irrigation system, provide support to hundreds of households of the most vulnerable groups so they can purchase agriculture inputs and restart their agriculture business.

The outcome of the REEF project is to enable a thousand of families cultivate their agriculture land, because of: (1) Increased community engagement in the process of restoring the irrigation canals (2) Cash assistance for agricultural inputs are available for the most vulnerable households.

The objectives of this final evaluation are as follows:

### OBJECTIVES

- To make interview with project beneficiaries, project staff and others project stakeholders involved in the project to assess the project achievements and to document the positive changes.
- To evaluate the relevance, efficiency and effectiveness of the project to increase capacity of beneficiaries to restore their income generating.
- To provide a comprehensive and summary of report with lessons learned, best practices, gaps and recommendation to enhance the project sustainability.

## **RESPONSIBILITIES**

- Review and analyze the project phases from its planning stages until completion and compare stated project goal and outcome with actual accomplishments, and examine the reason for such performance
- Make observations and (by case studies) obtain information and data on lessons learned and document best practices arising out of the project
- Determine the appropriateness of strategies and approaches used to restore infrastructure assets and income generating of affected households in post disaster context of Central Sulawesi

## **QUALIFICATIONS REQUIRED**

- Individual or organization who demonstrate a strong experience in project evaluation or impact study
- Demonstrate experiences in project evaluation in post disaster context, including recovery of livelihood assets.
- Familiar with qualitative impacts study regarding income generating rehabilitation
- Having a previous experience conducting evaluation on projects in Central Sulawesi is an advantage
